

Lenovo® recommends Windows® 7 Professional.

THE SMART PC UPGRADE EVERY LARGE ENTERPRISE SHOULD CONSIDER.

The new, high-performance Lenovo ThinkCentre® M81 desktop delivers:

- Enhanced productivity • Up-to-date technology support
- 15 month stability with Intel® SIPP platform • Robust security

Visibly smart performance at its best with the new Lenovo ThinkCentre M81 with 2nd generation Intel® Core™ i processor family.

lenovo®

Lenovo® recommends Windows® 7 Professional.

The power packed ThinkCentre M81, powered by the Intel® Core™ i processor family provides the highest, most up-to-date standards in manageability and energy efficiency, along with enterprise-level stability and security.

High-performance features for productivity and value

- Includes latest Intel® Core™ i processor with Hyper-Threading and Turbo Boost¹ Technology for fast performance and powerful multi-tasking
- Supports Quad Independent Display thereby saving time switching between applications
- Boots up in as little as 23.43 seconds with Lenovo Enhanced Experience for Windows® 7, saving users time
- Features USB 3.0² that's 10x faster than USB 2.0
- SATA III that's 2x faster than SATA II

Optimum manageability

- Preloaded Lenovo ThinkVantage® Technologies take the stress out of PC management
- Tool-less design facilitates easy expandability and reduced IT management expenses

Robust security

- Lenovo exclusive HPM (Hardware Password Manager) Advantages:
 - Enables complete central management of keys and passwords for all brands of self-encrypting hard disk drives
 - It makes life easier for administrators and users who don't know their real hard disk drive or BIOS passwords
 - The HPM simplifies easy recovery of data in case of lost passwords or if the employee leaves the company
 - It enables full hard disk drive encryption with native Windows® password management and resetting
 - Easy to use and implement
- Embedded TPM chip for data protection
- Individual USB enable/disable feature prevents unauthorized data copying and virus threats from USB peripherals

Eco-friendly features for your entire global PC fleet

- Full compliance with GREENGUARD® and ENERGY STAR™ standards (select models only)
- Power Manager™ software reduces power consumption and increases savings on energy bills

Easy to service and rely on

- 15-month platform stability that enterprises need
- Tool-less chassis for easy maintenance and expandability

- Tested rigorously for complete confidence
- Lenovo Asset Recovery Service simplifies the transition from old to new PCs with one convenient single source replacement solution

Award-winning base warranty, service and support

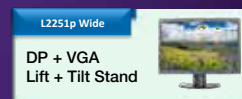

Lenovo's ThinkPlus® Priority Support—Advantages

- IT departments can get faster access to Lenovo technical support for PC hardware and software issues
- IT management tools maximize helpdesk productivity while managing overhead costs
- Users can bypass basic troubleshooting and experience shorter hold times, reduced repair times and higher first-time fix rates
- The IT team can concentrate on mission-critical business activities

Recommended upgrades
